Planned Electrical Works within Queenswood Gardens

Dear Residents,

We would like to inform you of some planned electrical works taking place
outside 'The Firs' block between 22nd February & 1st March 2023.

We need to replace equipment, which plays an important part in feeding power around the local area. Therefore, its repair is of high priority to us. The window of time is necessary to excavate the job, attend site to remove and replace the equipment and reinstate the ground removed during excavation. We envisage that the level of disruption during these works will be minimal.

During these works, the electricity supply to your property should not be affected.

Works will be within the grass area outside The Firs and should cause minimal disruption. Some parking bays may be suspended during these works.

Please see overleaf for a rough diagram of the working area.

If you require any further assistance, please do not hesitate to contact our Customer Service Team
